Message of Deputy Commissioner
विद्या ददाति विनयं, विनयाद् याति पात्रताम्।
पात्रत्वात् धनमाप्नोति धनात् धर्मं ततः सुखम्॥
विद्या विनय देती है, विनय से पात्रता, पात्रता से धन, धन से धर्म और धर्म से सुख प्राप्त होता है।

शिक्षा मनुष्य की वह नींव है, जिस पर मनुष्य का भविष्य निर्मित होता है। केंद्रीय विद्यालय संगठन, अपने शिक्षा के प्रति निरंतर प्रयासों से ज्ञान की जोत को भारतवर्ष में प्रज्वलित करने का सार्थक प्रयास कर रहा है। इस संगठन के मेरे सभी वरिष्ठ अधिकारी, सहकर्मी, शिक्षक और कर्मचारी अपने पूरे समर्पण भाव के साथ शिक्षा को प्रत्येक विद्यार्थी तक पहुंचाने का सार्थक प्रयास कर रहे हैं। केंद्रीय विद्यालय संगठन के विद्या रूपी वातावरण में अपना भविष्य निर्मित कर रहे सभी विद्यार्थियों के सुनहरे भविष्य की मैं कामना करता हूं।
धन्यवाद।

School Principal's Message

The Vidyalaya gives ample opportunities to prove oneself. A lot of exposure, boosted self confidence as well as motivation to do better. It's an abode where children discover their capabilities .Students unravel their creative façade and pursue their passion diligently to attain success . Academic and co-curricular activities play an integral part of student curriculum in this Vidyalaya. I congratulate the students and teaching community who have contributed in their creative expressions, besides helping them to be better human beings.

8 Truths of Life

Truth no. 1 :Nobody is real in this world except Father and Mother.

Truth no. 2 :A poor person has no friends.

Truth no. 3 :People do not like good thoughts they like good looks.

Truth no. 4 :The person you love the most,will hurt you the most.

Truth no. 5 : People respect the money not the person.

Truth no. 6 :Truth is simple. But, The Moment YOU try to explain , It becomes difficult.

Truth no. 7 :When you are happy you enjoy the music. But, when you are sad you understand the lyrics.

Truth no. 8 :IN LIFE two things define you “Your patience” when you have nothing & “Your attitude” when you have everything.

Thoughts

- * Preparation is the key to the door of success.**
- * Love what you are doing and you will see that all things to you are your loved ones.**
- * Life is not a bed of roses or a thorny road but it is in the middle, some are good and some bad or not good.**
- * If a person is winner he is a person who met with lots of failure.**
- * If you fail you can guide if you win you can lead.**

CHANGES

CHANGES are something we all have experienced in our lives

From eating raw to cooked food to the tasty pizza that we have today,

From walking to carts, to the cars and airplanes through which we travel,

From writing letters to the telephones to the smart phones which we use to talk,

From Hindu rule to Muslim rule to British rule to our today democracy in India,

By time, we saw animals being extinct and many new discovered, we saw new actors replacing the old once, new haircuts, new fashion, new laws,

Not just this weather, climate, people's mind, party rule all of this CHANGE.

We see change everywhere, every time, this doesn't stop. You grow you change, from birth to death we experience changes, so whatever is your age you must have grown in height, your hairs are long or short than it was, you might have shifted your house, changed school, u could have already passed your kinder garden, primary, high school, collage, maybe you are even working, these are some basic changes we all face.

Well, even today we are facing a huge change in our daily life,

CORONA, a small virus, has bought so many changes in our life.

Mask is something which all didn't use but now it has become part of us; sanitizers which were only used in hospitals are now in each our pockets, school which were offline are now online, work for home is now work from home, mall shopping has become online shopping, "go out and play" has become "stay home and play", regular holiday vacations are now cancelled, but this wasn't a positive change yet we all got used to them as well.

Changes have changed.Changes WILL CHANGE.

We all will surely go back to NORMAL from this NEW normal just stay positive and live on.

Essay on Bhagat Singh

Bhagat Singh was born on September 28, 1907, in the district of Lyallpur in Punjab which is now in Pakistan.

He was the third son of Sardar Kishan who was a revolutionary himself & Vidyvati.

Upon being asked what he wanted to be when he grows up, he said he would drive the British out of India.

He was perturbed by Jallianwala in the year 1912. He was only 12 years old then & the incident left a very deep scar in his heart.

He dropped out of school & took part in the Congress Movement. He actively supported the Swadeshi Movement. He would wear Khadi & burn foreign clothes.

He joined National College, which was patronized by great patriots like Lala Lajpat Rai.

In the daytime, he would attend the classes & in the evening he would discuss the revolution with his friends. He contacted leader of Bengal revolutionary party, Sachindranath Sanyal to join his party.

But he could join the party only in one condition that whenever required he should be ready to leave his home immediately. He agreed, he left the home in the wake of his impending marriage.....

Happy Independence Day!!!
Poem on I love my Nation

With Himalayas in the north,
Indian Ocean in the south
Arabian sea in the west,
Bay of Bengal in the east.

I love my nation!

With developed culture,

And beautiful sculpture

The people have no rest,

To do their work best.

I love my nation!

They give rice in nation,

They dress in latest fashion

They do many inventions,
Which are about fiction.

I love my nation!

With number of hill station,

Which are God's creation

It gives us protection,

And save us from tension.

Salute To My Nation ♥♡♡

trap? Not concentrating on online class?

Well you are at the right place

Social media addiction is an addiction that is defined by being overly connected to social media, driven by an uncontrollable urge to log on to or use social media, and devoting so much time and effort to social media that it impairs other important life areas.

In simple you focus on social media than on other things like studies, fitness, family etc

Effects of addiction to social media

Checking and scrolling through social media has become an increasingly popular activity over the 2years .Although the majority of people use of social media is non-problematic, there is a small percentage of users that become addicted to social networking sites and engage in excessive use.An estimated 27% of children who spend 3 or more hours a day on social media exhibit symptoms of poor mental health. Overuse of social networking sites is much more problematic in children and young adults because their brains and social skills are still developing.

The phenomena of social media addiction can largely be contributed to the dopamine-inducing social environments that social networking sites provide. Social media platforms such as Facebook, Snapchat, and Instagram produce the same neural circuitry that is caused by recreational drugs to keep consumers using their products as much as possible.Studies have shown that the constant use of retweets, likes, and shares from these sites have affected the brain's reward area

Dopamine: - it is a chemical released by our brain when we feel pleasure by doing anything. Excess dopamine causes

Irregular heartbeats.

Nausea.

Vomiting.

Anxiety.

to trigger the same kind of chemical reaction as other drugs, such as cocaine. In fact, neuroscientists have compared social media interaction to a syringe of dopamine being injected straight into the system.

What is the solution?

The person should engage in a digital detox; a period of time during which some-

one (parents) significantly reduces the time spent on electronic devices such a smartphones or computers. This can be accomplished by, turning off sound notifications and only checking social media sites once an hour. Other changes can include having a timetable for non-screen time, such as during meal times, or leaving the phone in a separate room at night so as not to disturb sleep

POLLUTION

The process in which some toxic pollutants are added to our environment is called pollution. It makes the climate harmful for both all the living beings. Pollution mainly happens because of man made activities, whether done unknowingly or deliberately. Nowadays, it has become an important issue worldwide. Many countries are facing defective childbirths and high mortality rates due to pollution. It makes natural things like water, air, soil, etc. harmful for both the humans and the animals.

The pollutants that mix in the air directly affect living beings as they get into the body directly while breathing. Water pollutants are in the same way hazardous for living beings. In today's time, manufacturing and construction units are significant sources of pollution. People living next to a manufacturing group often fall ill either by noise or air pollution. But the irony is that humans are the ones who are deliberately polluting the environment. They're just opening their own. We can't get an utterly pollution-free world. Still, we can decrease the level of pollution around us by becoming more sensible and controlling our activities, causing pollution.

CONCEPT OF WATER 'APAH'

Water is essential to all forms of life. According to Rig-Veda the water as a part of human environment occurs in five forms:

Rain water (*Divyah*)

Natural spring (*Sravanti*)

Wells and canals (*Khanitrimah*)

Lakes (*Svayamjah*)

Rivers (*Samudrarthah*)

There are some other classifications also in the TaittiriyaAranyaka, Yajurveda and Atharvaveda as drinking water, medicinal water, stable water etc. Chandogya Upanishad describes about qualities of water – The water is a source of joy and living a healthy life. It is the immediate cause of all organic beings such as vegetations, insects, worms, birds, animals, men etc. Even the mountains, the earth, the atmosphere and heavenly bodies are water concretized. The cycle of water is described. From ocean waters reach to sky and from sky come back to earth. Rain waters are glorified. The rain cloud is depicted as Parjanya God.

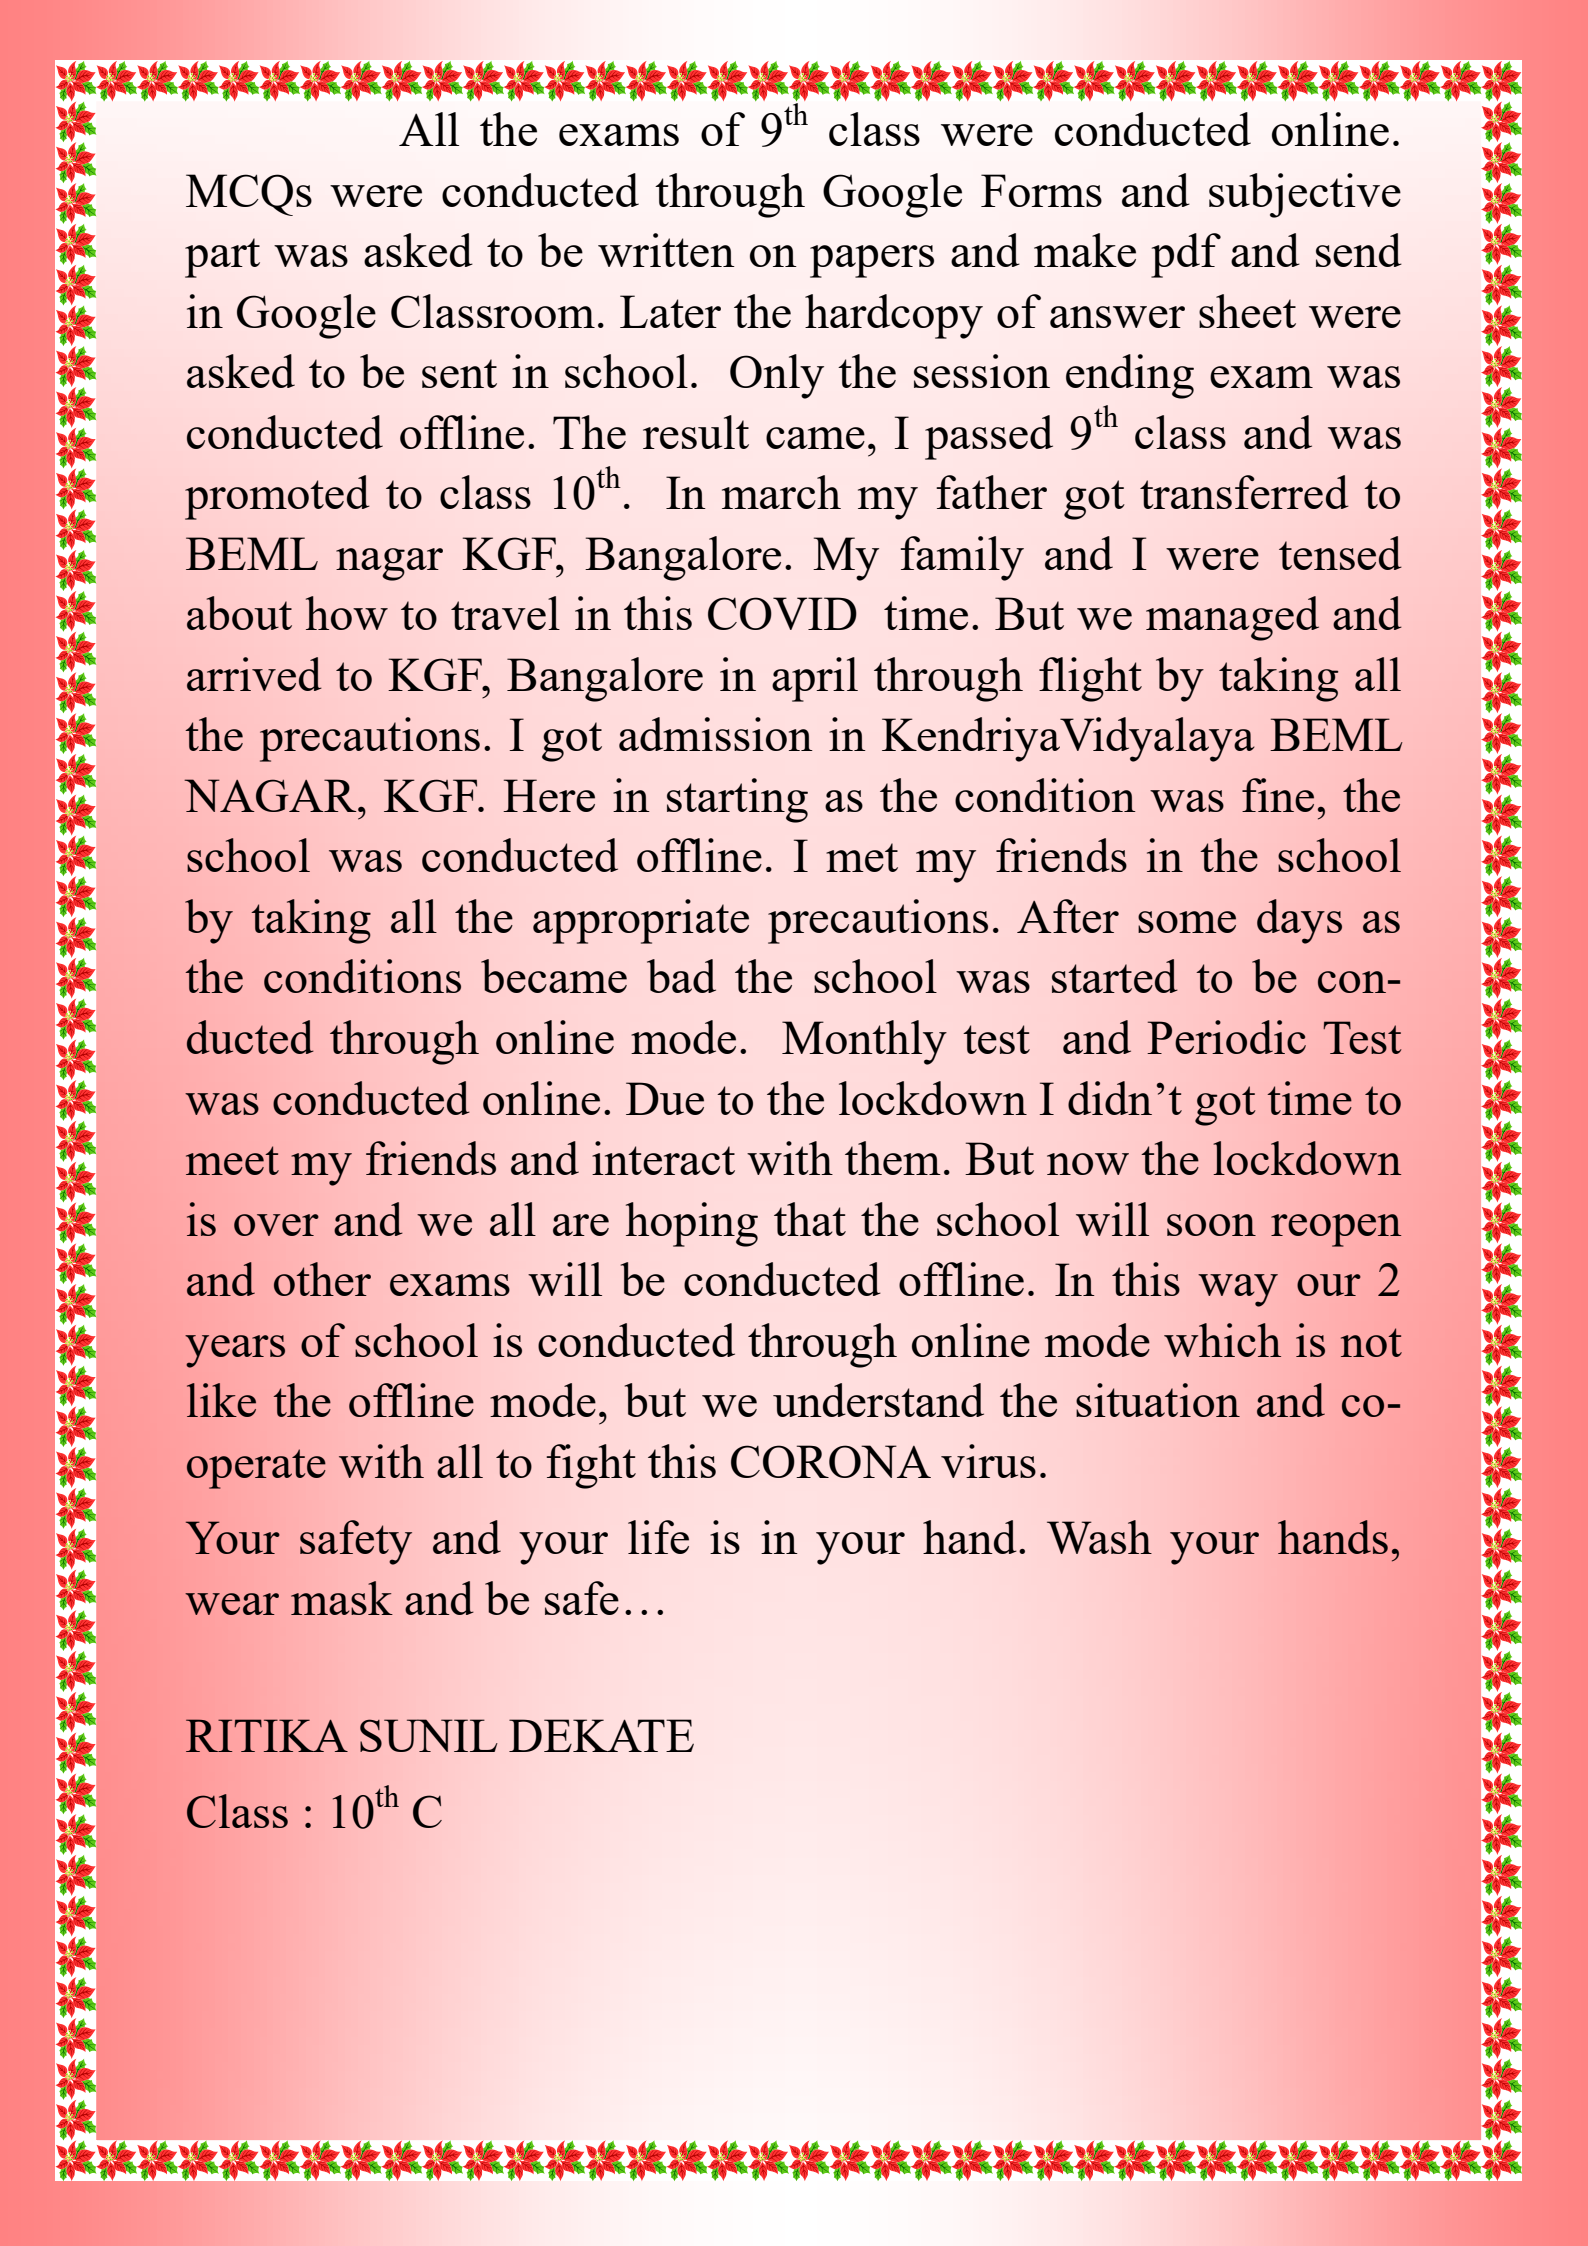

The fight between Indra and Vritra is a celebrated story from the Rig-Veda. It is explained in many ways. According to one view it is a fight for waters. Indra is called Apsu-jit or conquering the waters, while Vritra is encompassing them. Vritra holds the rain and covers waters and thus being faulty is killed by Indra through his weapon called Vajra i.e., thunderbolt. The Indra-Vritra fight represents natural phenomenon going on in the aerial space. By the efforts of Indra all the seven rivers flow. The flow of water should not be stopped and that is desired by humanity. The significance of water for life was well-known to Vedic seers. They mention water as nectar. Water is source of life for all plants and giver of good health. It seems that later developed cultural tradition of pilgrimage on the river-banks is based on the theory of purification from water. The ancient Indians knowing is pure and as a vital element for life, were very particular to maintain it pure and free from any kind of pollution. The water pollution forcefully saying, the person who pollutes waters of ponds, wells or lakes goes to hell.

EXPERIENCE ABOUT COVID 19 PANDEMIC

I was in class 8th in KV No. 1 GCF Jabalpur, Madhya Pradesh. Life was going normal in a flow. It was during Session Ending Exam days. Only last exam was remaining. Schools, shops, stationaries, markets, etc. all were open. But suddenly pandemic disaster came, and everything changed completely. Our Principal Sir, teachers told us that the last exam is postponed because of COVID 19. Then too we were preparing for exam in the hope of that last exam will be conducted someday. We all became aware about the pandemic by watching the news to get updates about COVID 19. We started washing hands regularly, cleaning and sanitizing all vegetables and things bought from outside. All of us were tensed about how the last exam will be conducted. Basic information of school was reached to us through class whatsapp groups. We got to know that last exam will not be conducted and its marks will be given on the basis of earlier marks in that subject. Then lockdown took place. Initially I felt happy to have more holidays. My daily routine changed completely, I became lazy and used to wake up late at morning. Then we were informed that there will be online classes through whatsapp and YouTube. This was a new experience for all of us. From next day I began to wake up early in the morning. We used to give attendance on whatsapp. After some days online classes started to be conducted on Google meet. This was a new application for me and my family. I was excited and also little bit tensed about how the classes will be conducted on the application, how the application works. As classes started on Google meet I became confident. It was a new experience for all of us.

All the exams of 9th class were conducted online. MCQs were conducted through Google Forms and subjective part was asked to be written on papers and make pdf and send in Google Classroom. Later the hardcopy of answer sheet were asked to be sent in school. Only the session ending exam was conducted offline. The result came, I passed 9th class and was promoted to class 10th. In march my father got transferred to BEML nagar KGF, Bangalore. My family and I were tensed about how to travel in this COVID time. But we managed and arrived to KGF, Bangalore in april through flight by taking all the precautions. I got admission in Kendriya Vidyalaya BEML NAGAR, KGF. Here in starting as the condition was fine, the school was conducted offline. I met my friends in the school by taking all the appropriate precautions. After some days as the conditions became bad the school was started to be conducted through online mode. Monthly test and Periodic Test was conducted online. Due to the lockdown I didn't got time to meet my friends and interact with them. But now the lockdown is over and we all are hoping that the school will soon reopen and other exams will be conducted offline. In this way our 2 years of school is conducted through online mode which is not like the offline mode, but we understand the situation and cooperate with all to fight this CORONA virus.

Your safety and your life is in your hand. Wash your hands, wear mask and be safe...

Music

The great legendary king, Jamshid is credited with the invention of music.

Music can also stimulate the mind . there are many things in music ,
To which one can listen and bring attention . music can raise
someone's mood, get them
Excited,or make them calm and relaxed .

The first ever song recorded was on April 9,1860 by Frenchman
Edouard-Leon scott de Martinville,who used a device called the
Phonautograph to record a woman singing the french folk song
“**Au Clair de La Lune**”

The oldest musical instrument is **Neanderthal Flute**.

परिश्रम का महत्त्व

सफतला की पहली कुंजी श्रम है, इसके बिना सफलता का स्वाद कभी भी नहीं चखा जा सकता है. जिंदगी में आगे बढ़ना है, सुख सुविधा से रहना है, एक मुकाम हासिल करना है, तो इन्सान को श्रम करना होता है. भगवान ने श्रम करने का गुण मनुष्यों के साथ साथ सभी जीव जंतुओं को भी दिया है. पक्षी को भी सुबह उठकर अपने खाने पीने का इंतजाम करने के लिए बाहर जाना पड़ता है, उसे बड़े होते ही उड़ना सिखाया जाता है, ताकि वह अपना पालन पोषण खुद कर सके. दुनिया में हर जीव जंतु को, अपने पेट भरने के लिए खुद मेहनत करती पड़ती है. इसी तरह मनुष्यों को भी बचपन से बड़े होते ही, श्रम करना सिखाया जाता है. चाहे वह पढाई के लिए हो, या पैसे कमाने के लिए या नाम कमाने के लिए. मेहनत के बिना तो रद्दी भी हाथ नहीं आती.

पुस्तकालय का महत्त्व पर निबंध

कहते हैं किताबें इन्सानों की सबसे अच्छी दोस्त होती हैं. जैसे व्यक्ति अपने दोस्त का हर पल, हर घड़ी, हर मुश्किल में साथ देते हैं, वैसे ही किताबें भी हर विषम परिस्थिति में मनुष्य की सहायक होती हैं. किताबों में हर मुश्किल सवाल, परिस्थिति का हल छुपा होता है. इंसान किसी भी दुविधा में रहे, किताबों को पढ़ने से, समझने से उसकी सोच का विस्तार होता है. कुछ लोग किताबें पढ़ने के शौकीन होते हैं. उन्हें तरह तरह की किताबों को संग्रह करना अच्छा लगता है.

एक शांत कमरा, ढेर सारी किताबें, कई लोग, फिर भी चुप. कुछ याद आया ? जी हाँ ! मैं बात कर रही हूँ किताबों से भरे उस कमरे की जिसे “पुस्तकालय” या “Library” कहते हैं. अपने स्कूल के दौरान हम सभी कई बार पुस्तकालय गए होंगे.

समय का महत्त्व

मनुष्य के जीवन में समय की महत्वपूर्ण भूमिका है। वह व्यक्ति जो समय के महत्त्व को समझता है वही इसका सही उपयोग कर प्रगति के पथ पर अग्रसर रहता है। परंतु दूसरी तरफ वे लोग जो समय की महत्ता की अनदेखी करते हैं अथवा समय का दुरुपयोग करते हैं वे जीवन पर्यन्त असफलता ही पाते हैं।

समय हम सभी के लिए अमूल्य है। समय धन से भी ज्यादा कीमती है, क्योंकि यदि धन को खर्च कर दिया जाए तो यह वापस प्राप्त किया जा सकता है किन्तु यदि हम एक बार समय को गंवा देते हैं, तो इसे वापस प्राप्त नहीं कर सकते हैं। इसलिए हमें कभी भी समय को बर्बाद नहीं करना चाहिए। हमें सकारात्मक ढंग से सही तरीके से समय का उपयोग करना चाहिए।
